Northeast Ohio Medical University
College of Pharmacy

Disclosure (s): Dr. Lay has no relevant financial conflicts of interest in relation to this activity. Dr. M. Petrea Cober, a speaker, is a consultant for BBraun/CAPS, Baxter, Fresenius Kabi, and Lexi-Comp. All of the relevant financial relationships listed for this individual have been mitigated. The reviewers who contributed to this activity have nothing to disclose.

Learning Objectives:

At the end of this knowledge-based activity, participating individuals should be able to:

- Describe the reasons to promote the closure of a ductus arteriosus in both very low birth weight preterm infants and full term infants
- Describe the agents available for pharmacologic closure of a patent ductus arteriosus
- Describe the interventional options (e.g., catheter based and surgical based) to close a patent ductus arteriosus
- Describe the risk factors for neonatal refeeding syndrome (RS) and strategies for prevention and treatment
- Summarize current evidence surrounding recent ASPEN guidelines for parenteral nutrition filtering requirements, photoprotection of parenteral nutrition, and the safe use of newer lipid injectable emulsion for neonatal patients

Target Audience: Pharmacists

Type of Activity: Knowledge

Fee: \$10 (or \$70 for all 10 courses). For C4 2022 participants who registered for the live program, please use

the access code provided to you by email.

Release Date: September 19, 2022 Expiration Date: September 19, 2024

Estimated time to complete activity: 1.0 hour CE: 1.0 contact hours (0.1 CEUs) Please visit https://pharmacyce.uic.edu/moodle/ to participate in this activity.

Continuing Education Statement:

Æ

The University of Illinois at Chicago College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. This activity has been assigned ACPE Universal Activity Number 0016-0000-22-051-H01-P, for 1.0 contact hours (0.1

CEUs). Reading the learning objectives and faculty disclosures; participating in the entire knowledge-based activity, active learning activity, post-test and activity evaluation; estimating duration of time spent on the activity; and submitting NABP eProfile ID and MMDD are prerequisites for receiving continuing pharmacy education credits. All ACPE credit awarded to participants must be uploaded to CPE Monitor ™ within 30 days of the activity date, so pharmacists are required to provide their eProfile ID and date of birth (MMDD) at the time of the activity. Please contact pharmac@uic.edu if you do not see activity information listed within 30 days. For more information and to set up your e-Profile visit: www.MyCPEmonitor.net.

How to Earn Credit:

Participants must complete the activity as described above in the Continuing Education Statement. To answer the questions, click on your selected choice for each answer then proceed to the next question. We recommend that you print a copy of your answers before you submit them to us. Once completed, click on 'Finish Attempt', then click on 'Submit All and Finish' at the bottom of the page. Your post-test will automatically be graded. If you successfully complete the post-test, a confirmation message will appear at the top of the page underneath your grade. You will have a chance to review the correct answers and answer rationale.

Hardware/Software and Internet Requirements can be found at https://pharmacyce.uic.edu/moodle/.
